EDUCATION

2022 - 2025

ALGONQUIN COLLEGE

Advanced Diploma of Computer Engineering Technology

- GPA: 3.92 / 4.0 – Dean's Honour List

2018 - 2021

UNIVERSITY OF QUEENSLAND

Bachelor of Communication in Digital Media

- GPA: 3.42 / 4.0

TECHNICAL SKILLS

Languages: TypeScript, Java, JavaScript, HTML, CSS, Python, MySQL, C#, C++, Rust

Frameworks & Tools: React, Angular, Spring Boot, Express.js, REST APIs, Node.js, MongoDB, ASP.NET, Unreal Engine 5

DevOps & Cloud: Azure, Jenkins Pipeline, OpenShift, Git, Jira, Agile

Design & Media: Adobe Photoshop, Figma, Final Cut Pro, Procreate

OS: Windows/Linux/Mac

PROFILE SUMMARY

Recent graduate with 1+ year of hands-on experience in full-stack web development and cloud-based deployment (Azure). Skilled in React, Angular, Spring Boot, and REST APIs. Strong foundation in both software engineering and digital media, bringing technical and design skills together to create intuitive, responsive applications. Actively seeking a frontend or full-stack developer role where I can contribute to impactful projects and grow with a collaborative team.

RELEVANT EXPERIENCE

Canadian Blood Services

Software Developer Co-op

JAN - AUG 2024

- Developed and maintained web applications using Angular and Spring Boot. Built features for an event scheduling system such as interactive forms, large dynamic tables with lazy loading, Google Maps integration, and Azure AD authentication.
- Created a reusable UI component library with Storybook and PrimeNG (tables, forms, calendars, map widgets) for use across multiple applications, ensuring design consistency and scalability.
- Automated CI/CD pipelines with Jenkins and OpenShift to streamline deployment and improve release reliability.

Canadian Blood Services

Systems Analyst Co-op

MAY - DEC 2023

- Automated certificate expiration alerts using PowerShell scripts integrated with monitoring tools.
- Enhanced CI/CD processes by contributing Python code to the Jenkins pipeline library.
- Built a CLI tool in Rust to manage Azure Key Vault secrets (create, update, delete, lookup).
- Developed a Flask-based web UI for Key Vaults, enabling easy access and secret management. Added features beyond Azure's native UI, including secret lookup and lazy loading to improve performance.

Algonquin College

Computer Engineering Tutor

MAY - SEP 2023

- Tutored students in Java, data structures, and web programming.

PROJECTS

Karate Hisory Tool | React, Spring Boot, MySQL, Azure

- Full-stack app for visualizing karate lineage with dynamic graph and admin tools.
- Role-based login, file uploads, and deployment using Azure App Services.

Household Management App | React, Express.js, Node.js, MongoDB

- Task management system with recurring tasks, meal planning, and shared lists.
- Designed for responsive layout and smooth user experience.

Portfolio Website | React, TypeScript, MUI

- Built personal portfolio site with clean, accessible design and modern UI components.
